Ingredients:

Textured Vegetable Protein (soy flour, caramel color)

Allergen Statement:

Soy

Benefits and Suggested Use:

Product is Vegan, Kosher & Halal too! Dry soy is textured and dehydrated and ready to rehydrated when needed to put in any recipe! Soy absorbs the flavor of whatever it's cooked with, and the texture and size is meant to mimic "beef" in dishes where you otherwise might use crumble or small diced meat.

Soy TVP, Sm. Chunk, "Beef", (200C)

Preparation and Additional Information:

Instructions for Preparation and Cooking:

To hydrate, add 1 part plant protein to 1.5 part water by weight and set aside for 15 minutes. Add the hydrated plant protein into your formula or recipe to partially or completely replace meat. The optimal level of hydration varies with the application.

YIELD: 1.5:1 UP TO 3:1 as prepared when hydrated.

TIPS:

- Do not re-hydrate with boiling water. The product hydrates best with warm water.
- Longer hydration will produce a better yield.
- Ideal to hydrate within the sauce/recipe so the soy absorbs as much flavor as possible
- Hydrate by weight, not by volume
- If you hydrate in a kettle, put in the plant protein at the same time as when you would the spices as you want to avoid scalding
